The Department of Justice as well as other agency s of the federal government should get off the backs of business let business have some air without always suffocating business so that business can keep people working and put the unemployed to work. It appears that governement will not give up until it breaks both the will of the people and drains there pocket books. The olny thing that governement believes is rght and correct is when it extorts money from the citizens and passes more laws to eliminate the freedoms that the founders of this country came here to preserve.
